BKK[®] TECHNOLOGY

STRENGTH

EYE & SPADE

STEEL

HOOK POINT

FORGING

BARB

SHANK

HOOK POINTS

Hand Ground

BKK Hand Ground technology enables the hook to reach unprecedented levels of penetration and lightness. This process leaves the original needle point unaltered as the grinding begins a few millimeters above the point.

- Hand ground sides form a sword blade for reduced piercing resistance.
- Lighter hook structure by grinding areas with minimal stress.
- Reinforced in critical areas to prevent bending out.

Cutting Delta

The design concepts of the Cutting Delta point originate from the formation of a military sword.

- Razor sharp tip with leading edges designed to reduce surface contact area.
- Cold forging enhances the penetration performance while strengthening the structure.

Cutting Blade

The patented design concept of the Cutting Blade was derived from the sharp teeth of a shark.

- Penetrate hard jawbone with ease by piercing through and sliding between the bony parts of a fish's mouth.
- Excels in long-range fishing techniques for bottom dwelling fish with bony mouths.

Combat Point

The design of the CP hook point resembles that of an inverted T, greatly increasing the penetration performance.

- Utilizing three edges helps aid in piercing through the hardest mouths.
- The central edge reinforces the structure and aids in its overall strength.
- Designed for long-lasting performance even after dealing with rocky bottom.

TREBLES

Crafted with uncompromising precision and built to help you land more fish from bass to bluefin tuna and everything in-between. BKK trebles offer unmatched strength, durability, and razor-sharp penetration, delivering a lethal combination of power and performance that sets them apart from the competition. BKK's commitment to detail and innovation becomes evident in the hand-ground treble hooks that guarantee precision, sharpness, and reliability. Whether you're a seasoned pro or an aspiring angler, you'll find the most advanced and reliable treble hooks on the market.

GT-REX

ULTRA ANTIRUST

The largest treble hook that concentrates the highest technology of BKK to serve the most extreme anglers.

We developed the GT-REX to challenge the biggest GT and Bluefin Tuna in the world on poppers and stickbaits. The design of GT-REX emphasizes superior hook-up ratio and excellent impaling power coped with strongest wires and super anti-rust feature. Processed through the most advanced heat treatment, GT-REX uses BKK-81W/V, the strongest material from BKK, to present its superior stretch power and resilience. The hook point of GT-REX adopts BKK's finest hook point processing technology to insure its ultimate impaling power. Meanwhile, sealed hook eye and advanced anti-rust technology equip this treble with a solid and long-lasting structure.

Short welded section increases the elasticity of the hook to reduce its possibility of being pulled open.

Our fully welded Micro Ring is formed once the hook shank has undergone a special grinding process. The strength of the ring is maintained while providing a slim profile that makes attaching a split ring super easy.

HG point - BKK's finest hook point processing technology insures the ultimate impaling power.

Deepest hook point and widest hook gap in the industry help penetration when bite occurs.

Perfectly curved hook bend maximizes strength and resilience.

GT-REX's super sharp hook point goes into the deepest part of fish's mouth and impales its hard bones as soon as the fish swallows the lure.

The combination of a curved hook point and wide hook gap minimizes chances of escape.

GT-REX

The BKK GT-REX was developed to tackle massive giant trevally and tuna. The Hand Ground hook point of the GT-REX coupled with BKK's signature Ultra-Antirust Coating ensure sustained sharpness and penetration performance. All the details of GT-REX from the hook eye to the points have been engineered to create simply the best-performing treble hook for your saltwater popping.

BKK-RAPTOR-Z

When you're going after "monsters"

BKK-RAPTOR-Z incorporates the latest hook making technology and BKK's legendary hand-crafting finishes. This is a hook that was designed with only one thing in mind: to hook strong and aggressive "monster" fish and stay hooked to the very end!

Our fully welded Micro Ring is formed once the hook shank has undergone a special grinding process. The strength of the ring is maintained while providing a slim profile that makes attaching a split ring super easy.

BKK's proud hook point processing technology insures the ultimate impaling power.

Short welded section increases the elasticity of the hook to reduce its possibility of being pulled open.

A wide gape and deep hook point design greatly reduces the chance of the hook coming off in the heat of combat.

Perfectly curved hook maximizes strength and resilience.

BKK-RAPTOR-Z

4X

FORGED

MICRO RING

STANDARD BARB

HAND GROUND

BKK engineers were asked to design a hook to tackle the strongest, most aggressive "Monster Fish" anyone could think of. The job requirement for a hook with not only superior impaling power and high hook-up ratio, but one that could also be super strong and highly resistant to corrosion. This is how the BKK-RAPTOR-Z came to life.

BKK-RAPTOR-X

3X

FORGED

BRAZED

STANDARD
BARB

HAND
GROUND

The BKK-RAPTOR-X is a 3X-wire treble hook whose design is inspired by one of the best treble hooks BKK ever launched: the BKK-RAPTOR-Z.

The hook gap-shank proportions are maintained to equip the BKK-RAPTOR-X with excellent holding power, yet the hook point is slightly straightened to enhance the hook-up rate, further heightened by the slimmer profile of the wire and by the Hand-Ground processing technology.

Featuring a lighter wire and being available also in very small sizes, the BKK-RAPTOR-X can be suitable to arm smaller lures without affecting their swimming action. The lightness of the hook structure is increased also by the Hand-Ground processing, through which the hook is manually sharpened by removing material around the point.

The Bright-Tin coating of the BKK-RAPTOR-X aims at maximizing its performance in terms of saltwater corrosion resistance, being thereby suitable even for harsh saltwater environments.

BKK-VIPER-41

The BKK-Viper-41 is a strong and sharp 4x treble hook designed with long and straight needle points and a very aggressive bend.

The design of the BKK-VIPER-41 stems from the experience made over the years with fast swimming diving trolling lures and surface skipping lures all around the world.

The straight point was chosen to maximize the hook-up rate when fish only hit the lure, while the aggressive shape of the bend ensures that the hook does not come off during prolonged fights or when the fish jumps out of the water.

To reduce the overall weight of the hook we shortened the welded section of the treble, thereby also providing more flexibility to the structure without affecting the overall strength.

The BKK-Viper-41 is coated in Bright Tin to resist even harsh saltwater environments and comes in a wide size range (6 to 6/0) to fit a huge array of lures, from small vibes to big SW stick baits and poppers.

FEATHERED SPEAR 21-SS

The BKK Feathered Spear 21-SS features natural feathers and reflective fibers to enhance the presentation of the lure. When added to the back of a topwater bait, crankbait or spoon, they undulate and spread when pausing, enticing more strikes imitating a minnow's tail movement. The treble is our extensively-tested Spear 21-SS featuring a SS coating and needle point for excellent penetration. Feathers come in two different combinations: white and black/red. Binding thread is covered in epoxy resin to improve durability even after many strikes. Sizes range from 1 to 8 to cover a good range of lure sizes.

SPEAR EWG-71 SS

The SPEAR EWG-71 SS is a 1X-strength treble hook specially designed to be equipped on crankbaits of all types. The shorter shank enables this hook to sit closer to the body of your lure, minimizing the impact on its swimming action and the chances of snagging. The inward-looking points and the EWG (Extra Wide Gap) design reduces the chance of pulled hooks without affecting the hook-up rate. The SPEAR EWG-71 SS features BKK's signature SS coating that ensures smooth hook-ups and maintains the hooks' sharpness over time.

FORGED

MICRO RING

HAND GROUND

SLIM SHANK

STANDARD BARB

The BKK-LONEDIABLO BUCKTAIL TEASER HOOK is the ideal choice for replacing the trebles on hard baits when targeting striper, tuna, and other king size saltwater game fish. Built on 5X saltwater grade BKK-LONEDIABLO hooks, these teasers combine the dynamic motion of genuine bucktail with the flash of holographic fibers proving to drive fish wild. The binding thread is covered in epoxy resin to improve durability, even after many strikes. These teasers are not limited to just topwater baits; they make a great addition to a variety of other rigs like jigs, shallow divers, and deep divers to attract more attention to your bait.

BKK-LONEDIABLO

5X

FORGED

MICRO RING

HAND GROUND

SLIM SHANK

STANDARD BARB

BKK-LONEDIABLO hooks have been developed to be used on lures like stickbaits and poppers. They embody all BKK's technologies and centennial experience. HG point ensures easy penetration, the unique design guarantees perfect hookset, and Bright Tin coating ensures enduring performance.

BKK developed a fabrication process for hooks carrying our Micro Ring label. Part of this process involves manual grinding before the material undergoes cold forging. The result is a strong slim ring profile that makes for easy attachment with split rings.

LONESNIPER NEW

The BKK LONESNIPER is an inline single hook developed for freshwater and saltwater inshore applications. Features include a needle point and SS (Super Slide) coating that provides cutting-edge sharpness and penetration performance. The peculiar hook shape maximizes the hookup rate and maintains the grip throughout the fight. In addition, the BKK proprietary HCS (Hyper Carbon Steel) enables the overall structure to achieve unprecedented levels of strength.

A-ES-8951	3/0	5	

1. FORGED RING

The Forged Ring Technology results in a smaller section that makes fitting split rings easy and quick.

2. SS COATING

The Super Slide coating increases the hook penetration performance due to the extremely low coefficient of friction the PTFE coating provides.

3. HCS - HYPER CARBON STEEL

BKK's proprietary HCS (Hyper Carbon Steel) is 25% stronger and 30% harder than traditional high-carbon steels. This enables the structure to achieve unprecedented levels of performance.

4. HOOK DESIGN

The hook design is inspired by one of the best single hooks BKK ever launched: the LONEDIABLO. The profile has been designed to optimize the hookup rate while minimizing the chance of pulled hooks.

PLUGGING SINGLE HD

6X

FORGED

BRAZED

HAND GROUND

SLIM SHANK

STANDARD BARB

The BKK Plugging Single HD is an assist hook developed to cater to heavy-duty saltwater lure fishing and can be a performing alternative to common treble hooks, when reduction of torsional forces is most needed.

In fact, the hollow-core assist cord provides more freedom of motion to the hook, resulting in a heightened hook up ratio and lower chance of the hook coming off. Besides, the single hook causes less damage to the fish, allowing for an easy and fast release.

Additionally, shimmering fibers have been added to further enhance the attractiveness of your topwater lures. Finally, a strong in-line solid ring allows for an easy and strong connection to the split ring.

SWIMBAIT HOOKS

Discover BKK's SwimBait Hooks - the TitanRider, TitanDiver, and TitanDiver+. Trusted by leading lure manufacturers including NLBN, these hooks are engineered for ultimate performance and durability. The TitanRider keeps shallow diving swimbaits horizontal, while the TitanDiver tracks medium-depth swimbaits smoothly, and the TitanDiver+ is perfect for deep diving swimbaits with its patented interchangeable weight system. All three feature BKK's advanced manufacturing techniques and Super Slide coating for corrosion resistance & increased penetration performance. Upgrade your swimbait game with BKK's SwimBait Hooks and experience their unbeatable strength and precision.

TITANDIVER+

The first member of the TITAN family was introduced just a few years ago and it soon became one of the most popular swimbait hooks for some of the biggest freshwater predator species. The fact it was bestowed the 2021 Good Design Award in Japan was a testament to the innovative features and design of the hook.

The more we used it, the more we thought about how to improve its set of features. In 2020 the TITANDIVER was born, stabilizing the swimming action and featuring a blade to enhance attractiveness.

In 2021 the latest generation of the TITAN series came to life: the TITANDIVER+, setting a whole new level for weedless lure fishing, from bass to bigger fresh and salt-water predators.

TITANDIVER+

The BKK TITANDIVER+ is the ultimate evolution of the Titan series.

A breakthrough in the swimbait hook segments, the Diver+ inherits all the features of an ordinary TITANRIDER hook – Super Slide coating, needle point, spring and silicon stopper – enhanced with a simple, intuitive and effective lead – swapping system. The system offers many different combinations to add weight to your lure as the lead can slide on the shank, stimulating the creativity of anglers in adapting it to various fishing techniques and conditions.

The bottom eyelet on the weight allows for the addition of a blade to enhance the presentation of the lure.

TITANDIVER

Released in 2018, the TITANRIDER paved the way for a whole new generation of strong worm hooks to rig even big soft plastic lures. This upgraded weighted version named Titan Diver is just the first step along the natural development of the series.

Designed to reach deeper spots, the TITANDIVER also comes equipped with a spinning blade for extra vibration and visibility, adding enticing glare to your lure presentation.

TITANDIVER

FORGED

RING

NEEDLE
POINT

STANDARD
BARB

The BKK TITANDIVER is a new, upgraded version of the TITANRIDER, designed for weedless-style rigging of larger plastics. It features all the characteristics of the original TITANRIDER – a locking spring to secure the plastic lure, a silicone stopper to keep it in place and the super slide coating – boosted by the addition of a fixed lead to take the fishing action deeper in the water, scouting sunken structures where predator fish may dwell. The lead in turn features a stainless-steel ring to allow for the possible attachment of a spinning blade, improving the appeal of your lure.

TITANDIVER - GOLD NEW

The BKK TITANDIVER is a new and upgraded version of the TITANRIDER, designed for weedless-style rigging of soft plastics. It maintains all the features of the original TITANRIDER, including a locking spring to secure the bait, a silicone stopper to keep it in place, and the Super Slide coating. In addition, it features a fixed weight that aids in presenting the lure down into the strike zone. The weight itself is equipped with a stainless-steel ring, allowing for the optional attachment of a spinning blade. The blade adds a fish-attracting flash, enhancing the appeal of the presentation. The gold color blade has been added to the lineup for its excellent visibility in low light conditions and stained/muddy water. Silver is better suited for brighter conditions and clearer water.

TITANRIDER

BKK TITANRIDER is designed for weedless-style rigging of small to large plastics like swimbaits, worms and tubes. A locking spring securely holds baits in place and allows angler to easily add or remove bait without damage.

The adjustable silicone stopper keeps soft plastics in place during casting whilst allowing for sliding down the hook when a fish strikes.

TECHNICAL BASS HOOKS

Whether you're fishing weedless Texas-style or flipping and punching through heavy cover, BKK's technical bass hooks undergo thorough quality control to ensure a perfect hookup every time. Increase your hookup ratio with the Super Slide coating and extremely sharp needle point.

CHIMERA

The BKK Chimera is designed for Texas rigging creature-like soft baits. The hook features BKK's Super Slide coating and a needle-sharp hook point that boost the penetration performance, heightening the overall hook up rate.

HEAVY COVER

The BKK Heavy Cover is developed for flipping and punching techniques. This hook is equipped with an SS finish and an extra-short needle point to ensure an excellent penetration performance and an improved point strength. A special higher-carbon steel material is used to enhance wire stiffness, coupled with a forged shank to enhance hook robustness. The stainless steel baitkeeper provides consistently straight rigging and superior holding power, and is covered in epoxy resin for improved durability. Epoxy resin finish is also applied to seal the hook eye, ideal for tying snell knots with braided lines preventing line damage and slippage. The BKK Heavy Cover is designed to endure and perform when fishing through thick layers of grass and other heavy covers.

SKU NO	Size	Qty	PKG
A-EW-9712	3/0	4	10
A-EW-9713	4/0	4	
A-EW-9714	5/0	4	

To achieve unprecedented levels of strength, these hooks feature BKK's proprietary **HCS Hyper Carbon Steel** that is **25% stronger and 30% harder than traditional steels.**

To maintain its sharpness strike after strike, BKK designed an extra-short needle point that is beefy enough to not bend when piercing through the bony plates of the fish's mouth, and extremely sharp at the same time.

A prominent barb placed close to the point makes for instant penetration and helps hold the fish throughout the fight.

These hooks feature BKK's signature SS (Super Slide) coating that enhances the penetration performance, easing the hookset, and getting the hook firmly in the roof of the mouth every time.

Each hook eye is sealed with smooth epoxy resin to prevent line slippage or damage. Excellent for tying snell knots with braided line.

The stainless-steel bait holder keeps baits in place flip after flip, without having to constantly monitor the condition of the soft plastic. Precisely positioned on the shank to leave the ideal amount of space from the hook eye for tying a snell knot. To avoid slipping after many strikes, each keeper is locked in place with epoxy resin.

The shank of the hook undergoes cold forging that enhances hook robustness and its ability to resist deformation.

PREDATOR WG

The BKK Predator WG is a freshwater finesse hook used for a variety of rigs such as Wacky and Dropshot, primarily for bass fishing. The wide-gap design and the Super Slide coating significantly enhance the hook-up rate, while the micro barb makes it suitable for catch and release. Despite its slim profile, the Predator WG is strong enough to fight big prey thanks to its forged shank.

PREDATOR WG WEEDLESS

The Predator WG Weedless is the weedless version of the original Predator WG for wacky and dropshot presentations. Featuring an SS finish and needle point for improved penetration performance and a forged shank, it is equipped with a fluorocarbon weed guard engineered to prevent the hook snagging the cover while allowing it to penetrate a fish with ease when striking. The guard is securely connected to the shank of the hook through strong binding thread further covered in epoxy-resin and will keep its shape and orientation fish after fish.

Baitkeeper

Bottom ribs

The BKK Draggin' Ned is designed specifically for Ned Rig presentations. Features include BKK's signature SS coating and a sharp needle point for enhanced penetration, and an O'Shaughnessy forged bend to maximize strength. We elaborated further on the concept of a classic Ned head by adding a series of details that make this jighead unique: a recessed eye to reduce snags and protect the knot when fishing over rocky bottoms, a baitkeeper designed to fit both elastomeric and standard soft bait compounds, and ribs on the underside of the head for increased sensitivity when dragging the bait on the bottom. The final touch is on the head, where size and weight specifications are embossed for easy selection. The Draggin'Ned comes in two colors: matte green pumpkin and matte black. It also comes in a weedless version featuring a nylon guard. Two sizes available (1 and 1/0), weight range 1/16 - 1/4oz. All these details and combinations make the Draggin'Ned the ultimate jig head for finesse standup approaches with 4-10lb lines.

SILENT CHASER GLIDE 'N SHAKE

The BKK Glide 'N Shake is engineered to combine both gliding and shaking presentations. The innovative bullet-head design allows for an optimal gliding action during the descent towards the bottom, and a flat surface on the front edge of the head makes it ideal for stand-up and shaking presentations once on the bottom. Hook size and weight are embossed on the head for easy selection. The hook features the SS coating and a needle point to ensure excellent penetration performance and a forged shank for improved resistance. The offset design eases Texas rigging soft plastics for a completely weedless presentation. Besides, the orientation of the hook eye reduces the chances of snagging as opposed to an inline eye which is more likely to lean on one side rather than cross over the snag.

SILENT CHASER ROUND

The Round-Head Jighead is our new version of a timeless classic jighead that finds application both in fresh and in saltwater environments. The Black Nickel coating enhances its ability to resist corrosion, at the same time protecting the needle point when jigging on the bottom. The 2x-wire and medium shank allow for stealthy presentations with small baits targeting big prey.

CIRCLE HOOKS

Designed with catch and release in mind, the lineup of BKK's circle hooks excel at providing a high hookup ratio while minimizing the risk of injury to the fish. With sizes ranging from #12 to 16/0, you can trust BKK to provide the ultimate stopping power to even the largest of fish.

MONSTER CIRCLE

BKK's Monster Circle hooks are specifically developed to target the strongest saltwater species. It features BKK's Ultra-antirust coating that ensures a superb saltwater corrosion performance and a super durable and sticky-sharp needle hook point for excellent penetration performance. Additionally, the inline hook point design ensures a jaw corner hook up, being for this reason ideal for C&R. These hooks are simply a must-have when targeting extremely big fish.

MONSTER CIRCLE DRIFTING SPECIAL

FORGED

BRAZED

HAND
GROUND

STANDARD
BARB

BKK Monster Circle Drifting Special is specifically developed for drift fishing tackling massive saltwater species. The hook is designed with a straight eye and an in-line hook point that make it very versatile, as it can be used to tackle various kind of blue water species such as tuna, king fish and sharks. When drifting, the stainless-steel ball bearing swivels with ultra-smooth dual rotation absorb all torsional forces and avoid tangles. BKK's signature Hand Ground hook point delivers superb impaling power and minimizes piercing resistance, increasing the hook up ratio. It is the go-to hook when targeting some of the world's largest fish.

COMPETITION CIRCLE-SS NEW

The BKK COMPETITION CIRCLE-SS is a light wire hook that features a wide gap and a SS (Super Slide) coating that enhances the penetration performance, easing the sliding of the bait onto the hook and delivering the best hooked-to-landed ratio. It is the perfect hook for a wide range of applications ranging from drifting with live bait to trolling for bill fish. In addition to the circle hook design, the inline point keeps the hook from catching the gut cavity or throat, making it ideal for catch-and-release and qualifying it as tournament approved.

HYBRID HEAVY CIRCLE-SS

FORGED

RING

NEEDLE POINT

STANDARD BARB

The SS Hybrid Heavy Circle is the inline-point version of the classic SS Heavy Circle. It features BKK's Super Slide coating for an enhanced penetration performance, a 45-degree up-turned eye to ease the snelling and an inline point to comply with the latest regulation of local fisheries and tournaments. It is the ultimate circle hook for striped bass fishing to support catch and release.

OFFSET HEAVY CIRCLE-SS

The BKK Offset Heavy Circle is an extremely versatile hook well suited for a wide variety of freshwater and saltwater fishing applications with both live baits and chunk baits.

These Circle hooks feature BKK's Super Slide coating which reduces friction for easy point penetration by simply coming tight to the fish when it takes the bait. The coating also helps ease the sliding of live baits onto the hook to help prolong their liveliness.

In addition to the circle hook design, the offset hook point further enhances the hook up rate by maximizing the chances of fish's self-hookups.

OFFSET HEAVY CIRCLE-GLOW

The BKK Offset Heavy Circle Glow is an extremely versatile hook developed to suit a wide variety of freshwater and saltwater fishing applications with both live baits and chunk baits, and specially eyeing at low light conditions like night fishing or deep dark waters.

The glow paint on the shank adds attractiveness and visibility to the hook, triggering the fish to bite whilst maintaining the original sharpness of the point.

In addition to the circle hook design, the offset hook point further enhances the hook up rate by maximizing the chances of fish's self-hookups.

RINGED MUTSU CIRCLE HEAVY-SS NEW

The BKK RINGED MUTSU CIRCLE HEAVY-SS is a stronger version of the MUTSU CIRCLE MEDIUM developed for heavier offshore applications with both live baits and chunk baits. It features a super sharp offset point which together with the SS coating delivers faster hookups and easier bait rigging. In addition, thanks to BKK's proprietary HCS (Hyper Carbon Steel), the hook structure is strong enough to hold big fish like blue and yellowfin tuna. The Additional solid ring allows the bait fish to swim livelier and naturally enticing more bites.

STANDARD BARB

The BKK BIG BAIT is an offset all-round bait fishing hook featuring a medium gauge and a wide bend to accommodate larger baits. Its SS finish and needle point provide excellent penetration ability and the forged shank increases the strength of the hook. The 45-degree up-turned eye favours a more effective snelling, ensuring the correct penetration angle when setting the hook.

TROLLING HOOKS

The Kajiki series of trolling hooks are geared toward blue water fishing for the world's largest and strongest fish. Whether it's high speed trolling for wahoo with the Kajiki HD, or light tackle aimed at mahi mahi, the hand ground points ensure a perfect hookup. Each Kajiki hook features welded rings, forged shanks, and are meticulously hand inspected to give the fisherman the ultimate trust to land the fish of their dream.

KAJIKI TROLLING HD

The BKK Kajiki Trolling HD is the ultimate trolling hook for billfish designed for 24kg-37kg class tackle. It features BKK's Hand Ground hook point that delivers superb penetration performance and the Bright tin coating that performs excellently in harsh saltwater environments. The perfectly welded ring and heavy-duty forged shank further enhance the strength of the hook. Kajiki Trolling HD is the go-to trolling hook when going after the world's biggest and strongest blue water species.

SLOW PITCH JIGGING HOOKS

Designed with performance in mind and crafted with precise engineering and the finest technologies, BKK's slow pitch jigging hooks are the ideal choice for any slow jig enthusiast. Razor-sharp points ensure easy hookups even during freefall and without main line tension. Two different wire sizes and shape designs match the whole spectrum of tackle, from 15lb light gear up to 60lb heavy gear. The custom fluoro-core assist cord increases the overall stiffness of the braid, minimizing tangling and always ensuring the correct hook orientation. Finally, thanks to three different assist lengths (S, M, L), these assists can be paired with all sizes of jigs available on the market. A one-stop solution for all slow jigging approaches.

GAFF-R

LIGHT SLOW FALL

The BKK SF Gaff-R has been designed for slow jigging applications. The Delta Point technology and innovative design ensure easy hook ups, even during free fall and without main line tension.

The hooks are tied using the BKK Fluoro Core Assist Cord to minimize tangles and improve hook penetration.

Thanks to the three lengths available, SF Gaff-R can be used with all kinds of jigs.

LENTUS

LIGHT SLOW FALL

BKK SF Lentus hooks have been developed to target deep-water monsters with the slow jigging technique. For this reason they have been designed with a heavy gauge that can stop the run of a big fish and an inturned point that reduces snags, but once set in the fish mouth won't come off during the fight.

The hooks are tied using the BKK Fluoro Core Assist Cord to minimize tangles and improve hook penetration.

Thanks to the three lengths available, SF Lentus can be used with all kinds of jigs.

SPEED JIGGING HOOKS

Whether you're targeting record size pelagic like bluefin tuna and yellowtail amberjack, or bottom dwelling species like groupers and snappers, BKK has the perfect hook to ensure a flawless presentation and maximize your landing percentages. BKK's commitment to performance becomes evident in every detail: hand-ground points for improved penetration, slim shanks for weight reduction, welded rings for improved durability, and tin coating for excellent saltwater corrosion resistance. Upgrade your jigs with BKK jigging hooks and experience the unmatched performance and durability that only BKK can deliver.

SF REEFMASTER HG

The BKK SF Reefmaster HG assist hook is a versatile jigging hook developed for fast jigging applications. The assist hook comes pre-tied with high-quality natural hair and glowing binding thread that help triggering more strikes even when facing tough fishing conditions.

The assist cord used is soft and extremely strong at the same time. This hook features some of BKK's best technologies including the ultra-sharp Hand Ground hook point, a perfectly welded micro ring and a bright tin coating for excellent saltwater corrosion resistance.

Natural Wave Motion

SF REEFMASTER NP

The concept underlying the development of BKK SF Reefmaster NP jigging assist hook is to provide anglers with a quality product equipped with a high cost-performance ratio. This assist hook comes pre-tied with a high-quality 16-braided-strand assist cord for optimum strength and flexibility.

The glow binding thread on the hook helps stimulating strikes even in low visibility conditions. The hook itself also features BKK's signature hook technologies including the micro ring technology and corrosion-resistant bright tin coating.

EVA ADHESIVE FISH RULER NEW

The BKK EVA ADHESIVE FISH RULER is made from 1/4" (6.5mm) closed cell EVA foam material with a brushed texture, measures up to 40" (overall dimension: 43"x 7"). The ruler can be easily adhered to any boat, deck, kayak, etc. with the aggressive 3M™ pressure sensitive adhesive. It also features routed numbers that will not fade or break down, as well as a non-skid surface to help measure slippery fish. The non-absorbent durable EVA foam allows the ruler to be wiped down with rag and cleaned easily with water and it dries quickly. Available in Grey over Black.
