2020 | MANUFACTURERS' FISH HOOK CATALOG

Mustad

2020 | MANUFACTURERS' FISH HOOK CATALOG

TECHNICAL SUPERIORITY BUILT ON LEGENDARY HERITAGE

IN THE MIDST OF THE MID-1800s RECESSION, MUSTAD, A NAIL AND WIRE PRODUCER IN GJØVIK, NORWAY, HAD AN IDEA THAT WOULD CHANGE THE WORLD OF FISHING FOREVER.

By 1877, the “Hook Maker” was turning raw steel wire into high-quality hooks, completely changing the way fishing hooks are manufactured. To avoid having their innovative machine copied by competitors, Mustad encrypted the blueprints and kept the machine’s location secret. They even prevented certain factory workers from speaking to one another, even going as far as to having them eat their lunches in separate rooms.

There was a reason for the extreme secrecy. The Mustad Hook Maker worked, and allowed the company to take over the market with higher quality hooks at lower prices. More than 60,000 types of hooks were gathered from across the world for the Hook Maker to recreate. Stronger, cheaper versions of them were returned to fishermen in every corner of the globe.

Innovation, quality and a pioneering spirit have led to Mustad becoming the largest hook producer in the world. Today, Mustad can be found in over 160 countries around the globe. In many of those countries, the name “Mustad” translates to “fishing hook.”

INDEX 90

INDUSTRY LEADER IN LANDING FISH.

SINCE 1877, OUR LEGENDARY NORDIC CRAFTSMANSHIP HAS BEEN TESTED IN VIRTUALLY EVERY OCEAN, SEA, RIVER AND LAKE ON EARTH. OUR INNOVATIVE MATERIALS AND PATENTS HAVE SET THE STANDARD IN MODERN FISH HOOK MANUFACTURING AND QUALITY. AND WE CONTINUE TO PUSH THE LIMITS WITH PREMIUM HOOKS FOR EVERY SPECIES — FROM 1,000-POUND TUNA TO 3-POUND TROUT. WHILE OUR HERITAGE OF EXCELLENCE BEGAN WITH OUR TACKLE IT IS CONSTANTLY EXPANDING ACROSS THE ENTIRE FISHING WORLD, PROVING OUR PASSION FOR OUR PEOPLE, OUR CUSTOMER, OUR SPORT AND OUR PLANET.

MUSTAD VALUES

PIONEERS

A pioneering spirit guides design, product innovation, and on-the-water expertise.

SUSTAINABILITY

We are in a business that is directly linked to the welfare of the ocean, lakes, rivers, and waterways.

EXCELLENCE

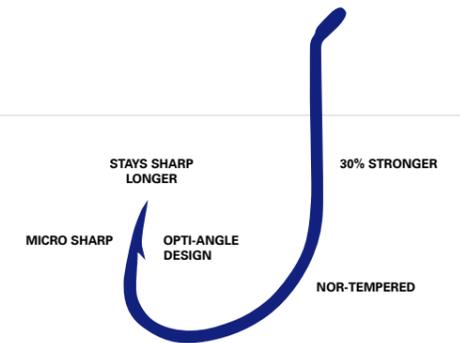

Define excellence through a constant level of quality over time. Quality in our product and the storytelling of each day on the water.

PASSION

Passion is at the core of all things Mustad; passion for the pursuit, conservation, and education of all things fishing.

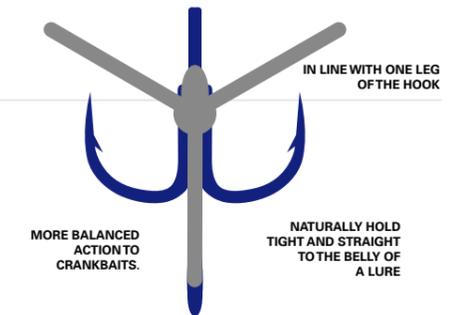

ULTRAPOINT®

Mustad's UltraPoint® Technology ensures incredible sharpness without compromising strength. UltraPoint® hooks are 20% sharper and designed to stay sharper longer, so you can keep casting without changing lures or sharpening hooks.

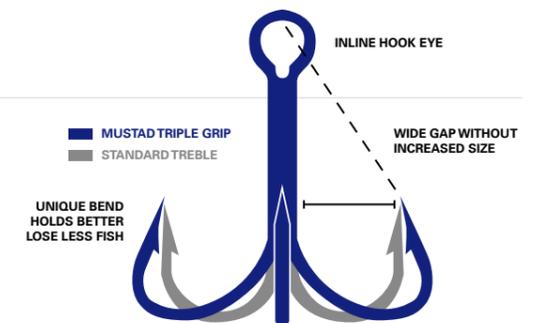

IN-LINE TREBLE

Mustad In-Line Treble hook are made of three single hooks with Mustad latest automatic welding technology, the eye is positioned directly "In-Line" with one leg of the hook, designed to provide more balanced action to fishing lures, this allows the hook to naturally hold tight and straight to the belly of a lure, and enhances a more realistic swimming with stable, accurate suspension display.

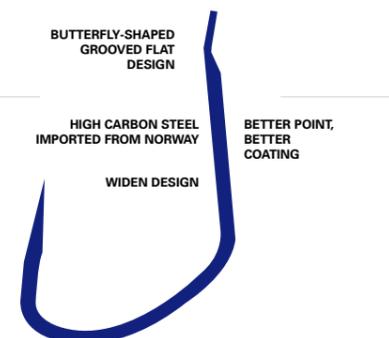

TRIPLE GRIP®

Mustad Triple Grip® hooks combine exceptional hooking and holding capability with outstanding strength. They feature a precise shape that almost "locks" a fish into the elbow of the bend, making it virtually impossible for the fish to throw the hook.

ASIAN RANGE NP HOOK

The new Asian Range NP hooks, with Norwegian imported high carbon wire, are tailor made for freshwater coarse species based on the new fishing trends in Asia, the special butterfly line grooves keep the line in the right direction!

MUSTAD CORE VALUE: SUSTAINABILITY

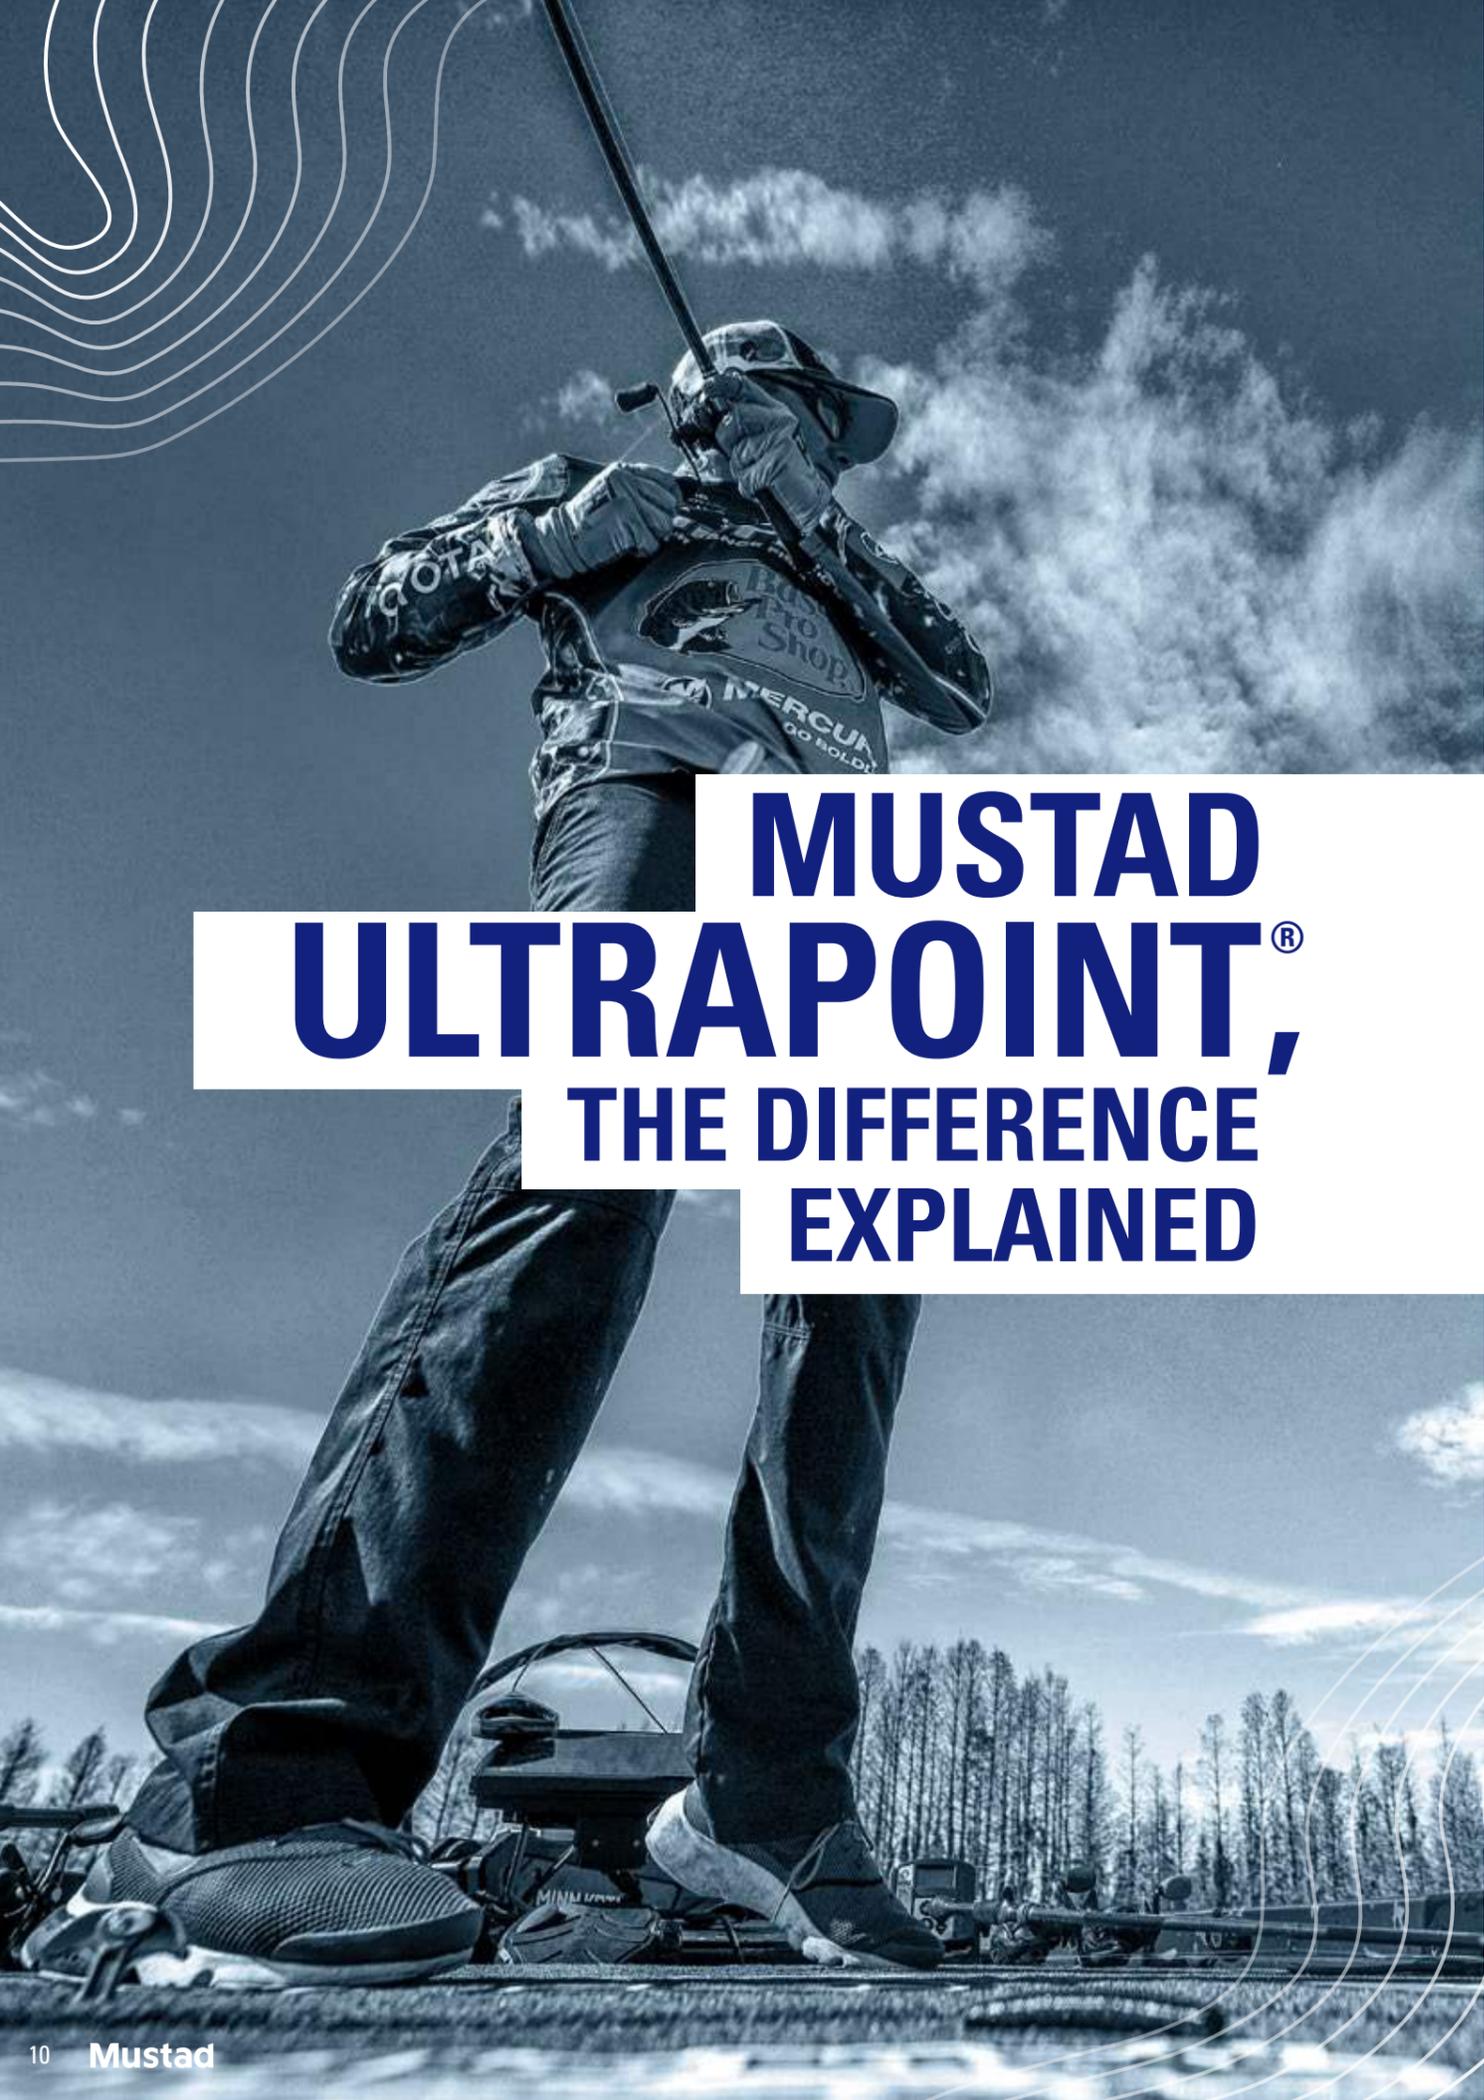

THE FUTURE OF OUR OCEANS - OUR ROLE

The recreational fishing industry is intimately linked to the welfare of our oceans, lakes and rivers. As both industry leaders and passionate anglers, we are actively working to help address sustainability challenges, rather than contributing to them.

To measure our progress towards becoming a more sustainable and responsible business, we have identified several United Nations Sustainable Development Goals as priority areas for action; these include Goal 14 - 'Life below water' and Goal 15 - 'Life on land' (including freshwater ecosystems).

We are working collaboratively on various sustainability projects aimed at reducing our impact on the environment and becoming good stewards for future generations.

MUSTAD ULTRAPPOINT,[®] THE DIFFERENCE EXPLAINED

ULTRAPPOINT[®] STAYS SHARPER LONGER

ULTRAPPOINT[®] IS MUSTAD'S TOP OF THE LINE HOOK RANGE

In 1998, Denny Brauer won the Bassmaster Classic on the first UltraPoint[®] Hooks and the rest is history. Mustad prostaffers took home the Bassmaster Classic Trophy the first 4 out of 5 years, and UltraPoint[®] has been credited in at least 9 Bassmaster Classic victories since then. No other hook company has even come close.

Having a good sharp point that stays sharp makes a big difference in the amount of time fishing and not changing lures or sharpening hooks. It all adds up and can make the difference between catching, and... well, not catching.

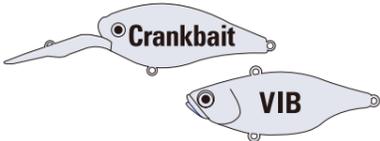

UltraPoint[®] Technology was invented by Mustad with one purpose: to make Hooks Stay Sharper Longer. Whether you're fishing for Bass, Tarpon, Tuna, or any other species, one of the most critical parts of fishing is your hook point. Many hook points start sharp but easily roll or break, especially when fishing around structure like docks, rocks, gravel stumps, and for big fish with tough bony jaws.

The most advanced technologies come together to produce UltraPoint[®] hooks. Mustad hooks have an enduring reputation for legendary strength and consistency, and this is no coincidence. First, Mustad is the only hook company in the world that owns and operates our own wire manufacturing facility, in continuous operation in Norway since 1832. Having production on our home ground makes it possible to control all processes and produce the highest possible quality. Mustad is the only hook manufacturer controlling all phases of production from wire to finish.

4.3 MICROSHARP POINT TECHNOLOGY

UltraPoint[®] is created using state-of-the-art, three stage Opti-Angle™ sharpening technology which removes less metal from the point than traditional methods – without compromising sharpness. The point length is engineered to the optimum ratio for maximum sharpness and strength. UltraPoint[®] hooks are 20% sharper and designed to stay sharper longer.

THE WORLD'S MOST ACCOMPLISHED ANGLER TRUSTS MUSTAD.

KEVIN VANDAM

For more than 25 years, the biggest name in bass fishing has trusted his success to Mustad.

Proving himself with more tournament wins than anyone else in bass fishing, including four Bassmaster Classics, there is no one who knows more about angling than bass fishing Hall of Famer KVD. His expertise and feedback are invaluable to Mustad as we continually improve our products and look for new ways to solve problems faced by anglers across the world.

We thank KVD for his allegiance to Mustad and his unmatched performance in the world of bass

OCEAN CRYSTAL JIGGING ASSIST RIG

UltraPoint, Jigging Hook, Forged

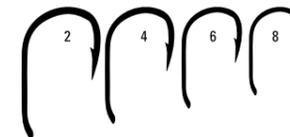

ULTRAPPOINT CARP HOOK

It is with great pleasure to present our XV2 Carp Range, covering most applications on modern Carp fishing. For this season, this range is offered with Mustad's new matt gray titanX giving an exceptional strong none flashy finish. At the same a ultra smooth hook for easy penetration. Also the range will be updated to the new and ultra sharp Ultrapoint 4.8 point technology. The points are a bit longer than the 4.3 point technology given an exceptional sharp hook for carp fishing.

ULTRAPPOINT

The new UltraPoint 4.8 has a more narrow point than the regular 4.3 point. This gives a slimmer hook point and optimal hook setting and penetration for carp fishing. The sharpest hook point ever!

Mustad's new matt gray titanX finish is much stronger than teflon and gives a thinner coating keeping the hook point sharp. Ultra smooth hook for easy penetration.

Opti-Angle Needle Point for fast penetration

INSTRUCTIONS
 Put the hook point of the spinnerbait trailer hook through the eye of the Pro-Stinger trailer hook. Cut a small piece of the included surgical tubing and run the spinnerbait hook through the tubing. Slide the tubing down the shank of the spinnerbait.

Extra large eye for easy rigging

39937NNP

MUSTAD ULTRAPPOINT® NEEDLE EYE GIANT CIRCLE HOOK In-Line

Chemically Sharpened, Nor-Tempered, Point Curved In, 2X Short, 3X Strong, Needle Eye, Duratin.

Designed for Catch and Release of Large Sharks, including Makos and Tigers. Barbed to prevent hook point from multiple penetration, needle eye so the fish can be released with a quick cut of the wire leader. Leader Channel ensures perfect alignment when rigging bait and fighting fish.
